# About Us

## How did we get started?

The idea to create the 3D puzzle fireplace was born in 2020 during the lockdown. More than just something nice to look at, it helped bring light, ambiance, and joy to our families when we needed it most. What began as a passion project grew into a mission—to share that same sense of comfort and connection with others around the world.

## Why do we love what we do?

We love what we do because we've seen firsthand how something as simple as a glowing fireplace can transform a space and lift spirits. It's not just about design or technology—it's about creating moments of warmth, laughter, and togetherness. Hearing from customers who say our fireplace has become the heart of their home is what fuels us every day. We're passionate about blending innovation with emotion, and we're proud to bring comfort and beauty into living rooms, one fireplace at a time.

## What makes our product unique?

With its elegant design, warm feel, and hassle-free setup, our 3D fireplace is the perfect way to add some magic to your space. It's lightweight, easy to install, and completely mobile—no smoke, no chimney, no mess. You get the cozy, comforting glow of a real fire, anytime, anywhere, without the complications. It's not just a fireplace; it's an experience.
